"We've got to ride the global warming issue. **Even if the theory of global warming is wrong**, we will be doing the right thing in terms of economic policy and environmental policy." – Tim Wirth, former member of Congress, U.S. Under Secretary of State for Global Affairs.

[At the Fifth Congress in Moscow](#), 'The Program,' was drafted and agreed upon by the International Communist dictators. It was agreed that an environmental "crisis" would be gradually developed to siphon off the money from capitalism and reduce countries to socialism and eventually under communism. I refer readers [back to this column](#) and the book by Gus Hall, head of the Communist Party USA for decades: *Ecology, Can we survive under capitalism?* published in 1972.

While the news media in this country saturated the air waves over Michael Jackson's death last Friday, a real battle was going on in the House of Outlaws in Washington, DC. Comrade Pelosi was absent most of the day breaking arms to get the required number of votes to save the planet!

Those of us who have actually taken the time to do the research fully understand global warming is a monstrous hoax against the world. Master of hustle and bull, Al Gore, [has cleaned house](#) promoting global warming. It has been his cash cow to an estimated \$100 million dollars into his bank account. Usurper, Obama/Soetoro, believes the propaganda, too: [Scientists: Obama document is 'scare' tactic](#). "This is not a work of science but an embarrassing episode for the authors and NOAA," said meteorologist Joe D'Aleo, the former chairman of the American Meteorological Society's Committee on Weather Analysis and Forecasting."

Let me say as someone who has been an activist full time going into my 20th year, next to NAFTA, GATT, CAFTA, our unlawful participation in the communist United Nations (UN and the phony "hate crimes" bill sitting in the senate), this so called energy bill ranks at the top. It will further destroy the economy of this

country, our rights, run rough shod over the states, destroy more jobs that will go to commie China and destroy businesses.

Below are learning links that tell you the truth instead of the bald faced lies from Gore, Obama/Soetoro, Clinton, Comrade Pelosi and those who stand to rake in big bux from the fruits of your labor, bleeding this country dry.

First, let me comment on the hypocrisy of the Republicans; I belong to no party. This dangerous bill went from 936 pages to 1,201 pages and who knows what the final one looks like? H.R. 2454 morphed into an even more draconian piece of legislation and at 3:00 am, June 25, 2009, another 312 pages were added. The vote was scheduled for late in the day on June 26, 2009.

I watched quite a bit of the live coverage C-SPAN. Every Republican gave the number of people who would lose jobs in their districts based on the language in the bill; all in the thousands. More jobs that will go to commie China. The Democrats got up and lied about what you could read with your own eyes in the bill.

At one point, Rep. Gomert addressed one of the stupidest, most politically correct air heads in Congress, Ellen Tauscher, who was the chair woman while Pelsoi was making back room deals with the question: There is another 300+ pages added, but where is it? How do I get a copy before the vote?

This arrogant nit wit said Gomert didn't ask a proper parliamentary question! After Gomert persisted, where can I get a copy, she replies it's in the Rules Committee Report, an amendment voted on earlier.

Rep Barton then asks the same question: Fine, but where do we get a copy? How can we vote on 300+ pages added to the bill when we don't even have a copy of the text? (Not that any of them read this stuff in its entirety anyway.)

This arrogant female, and you should see her presiding over the house like some sour puss Queen, said once again, it's in the Rules Committee Report and that it's not her job to provide a copy.

Rep. Ike Skelton, another putrid Democrat from MO, popped up out of his stupor and said, "The bill isn't perfect, but we need to pass it and move on."

Rep. John Boehner had a go around with an old burned out, empty headed fool, Henry Waxman. Yeah, Boehner, it is an outrage what went on last Friday and your party has done it in the past to the Democrats. Do we all remember what happened over the draconian "Patriot Act" bill? [Here's a refresher](#) from 2002:

"In an interview with Rep. Ron Paul (R-TX), The Beacon has uncovered at least one Congressman that admits that Congress sometimes passes unconstitutional laws. Furthermore, Congressmen know that these laws are unconstitutional at

the time that the bills are passed. In addition, Rep. Paul revealed that laws are sometimes passed without the bills being available for reading and that often bills are passed on a "voice vote" (not a roll call vote) so that people back home will not know how a specific Congressman voted.

"A recent example cited by Rep. Paul is the USA Patriot Act. This bill violates several constitutional protections and defines a "terrorist" as anyone who opposes a federal government program or policy. [According to Rep. Paul](#), this means that a person who differs with the government on issues such as abortion, gun control laws, Free Trade Agreements, the United Nations, or any number of programs and activities could be defined as a terrorist and investigated by the government even though no crime is committed. The USA Patriot Act also gives the government the authority to establish a National ID Card for tracking and surveillance.

"I've heard many conservative Congressmen expressing disappointment in themselves for voting in favor of this bill now that the American people are beginning to realize that this is a bad bill", said Rep. Paul. Rep. Paul also stated that the USA Patriot Act was not available to read or study before it was voted on and passed.

"Another example cited by Rep. Paul is the recently passed Campaign Finance Reform Bill. This bill will silence groups from reporting on information such as how our federal elected officials have voted on important legislation anytime within 60 days of an election or 45 days before a primary. "Many Congressmen are now saying that they know it is unconstitutional but that is up to the courts. That, to me, is one of the most despicable arguments I've ever heard", said Rep. Paul. "What's the sense of taking an oath of office if you're going to pass things that are unconstitutional and hope the courts will save you from yourself", Rep. Paul continued."

In 2002, Congress was controlled by the Republicans with a Republican president. A crook by the name of Dennis Hastert was Speaker of the House. He is a Republican. Now he's living the high life off the fruits of your labor when he should have gone to jail. The point is that the Republican leadership pulled the same shenanigans in 2002 as the Democrats did last Friday. They also shafted their own at the same time who would have voted against that bill.

Boehner is in his 10th term in Congress and he was there when the Republicans did the very same thing to the minority Democrats. While these outlaws play their stupid political games, we the people are being crushed and driven into poverty. While Boehner deserves credit this round - ("By [imposing a tax](#) on every American who drives a car or flips on a light switch, this plan will drive up the prices for food, gasoline and electricity," said Boehner...) - **where were the Republicans from January 1995 until November 2006?** They had ample time to address the energy problems and take them one at a time, intelligently,

thoughtfully and in the best interests of the republic and cost to we the people with a GOP controlled Congress and White House.

The [vote was 219-212](#), a margin of only seven votes. Eight Republicans voted for this unconstitutional mess. While every member of Congress should be thrown out on their backsides in November 2010 (except Ron Paul and which clearly won't happen because millions of Americans are drowning in stupidity), these eight should be top of the list:

Mary Bono Mack R (CA); Mike Castle R (DW); Mark Steven Kirk R (IL); Leonard Lance R (NJ); Frank LoBiondo R (NJ); John McHugh R (NY); Dave Reichert R (WA); Chris Smith R (NJ)

The Internet is buzzing there is [one more chance to stop this in the House](#):

### **MOTION TO RECONSIDER**

"A motion to reconsider is a parliamentary practice that gives the House (or Senate) one opportunity to review its action on a motion, amendment, or measure.

"Motions to reconsider are routinely laid on the table -- or killed. If a motion to reconsider is adopted, it requires a vote be held again on whatever the House has voted to reconsider. **Only Members who voted on the winning side may move to reconsider a vote.** (Emphasis mine) Members have been known to change their votes at the last minute in order to be eligible to offer the motion.

"If the original vote on a question is close, enough members might be persuaded to change their position, or absent members could come to the floor, vote to reconsider, then reverse the outcome of the original vote.

"Typically, however, after announcing the result of a vote, the Speaker states that, "without objection, a motion to reconsider is [laid on the table](#)." This uses up the one opportunity to reconsider, and makes the result of the vote final."

However, the link "laid on the table" [may end any hope](#) of a motion to reconsider:

### **LAY ON THE TABLE**

"A motion to lay on the table a bill, resolution, amendment, point of order, appeal or another motion disposes of the question immediately and finally and adversely -- it kills it without a direct vote on the substance of the question. A motion to table is not debatable and is adopted by unanimous consent -- without objection - - or by majority vote. It is a "highly privileged motion" -- that is, in the order in which motions are given priority in the House, only a motion to adjourn has higher precedence than a motion to table a measure."

Did Pelosi or her minion, Tauscher, state: "without objection, a motion to reconsider is laid on the table"? In checking the [Daily Digest for Friday](#), I did not see a statement by Pelosi on this, but the record might not be complete. I don't have a video of the entire proceedings.

Congress is now out of session until July 6, 2009. The next step is the U.S. Senate and numbers. As far as I can tell, there is no resolution to the putrid Franken/Coleman senate race in Minnesota; [click here](#). Franken is the buffoon a lot of people in Minnesota voted for - a comedian who made his living telling foul jokes. Franken became even more famous for his jokes about raping women. But, since he's a Democrat, that seems to excuse his filthy mouth, authoring porn and outrageous behavior. I can only say shame, shame on any American in Minnesota who voted for the equivalent of dirty pig. Oh, and one more thing: Franken committed adultery with hard core socialist, Arianna Huffington according to her; [click here](#). But, then again, Huffington's husband left her to have sex with men. Does it get any more revolting?

Liberal Democrat, Arlen Specter, most certainly a perfect vision of a corrupt politician, finally gave up his phony Republican label and went home. There are two "independents" - Comrade Bernie Sanders (VT) and the doddering old fool, Joseph Lieberman (CT). **There isn't a single, real constitutionalist in the U.S. Senate** and many of the freedom hating Republicans, i.e., [Juan McCain](#) (Create green jobs! In favor of cap and trade), [Olympia Snow](#) (Voted yes on factoring global warming into federal project planning), [Susan Collins](#) (Voted yes on factoring global warming into federal project planning) will support this nonsense. The next step is to bombard the Senate with phone calls, faxes and snail mail (they ignore emails and respond with blather form letters) from now until the vote. I cannot stress to you how critical it is that we stop this from getting to the desk of the usurper Obama/Soetoro. [Here is the list of senators and their web sites](#) to contact after July 6, 2009. Also, remember that only 1/3 of the senate will be up for reelection in 2010.

This bill - **the largest tax hike in the history of this country** - cannot get to Obama. This bill will kill 2 1/2 million jobs and most will go to commie China. How do I know? I listened to Boehner on C-SPAN for over an hour go through the amendment - a never ending horror story. There is a provision for extended unemployment for those who lose their jobs! Yes, that is right. These craven power mad politicians already know millions of jobs will be lost while we're heading for Depression Two, but don't worry! There's lots of unemployment to replace paychecks. Where is your outrage, America?

I'm going to cover sections of that bill on my radio show tonight. Our very survival is on the line and we need to inform as many Americans as possible so the roar when the senate returns week after next is deafening. Here are a few bullet points provided by American Solutions ([check their web site here and look at the big map](#)):

Destroy an average of 1-3 million jobs, every year  
Raise inflation-adjusted gasoline prices by 74 percent  
Raise residential natural gas prices by 55 percent  
Raise an average family's annual energy bill by \$1,500 annually  
Increase the federal debt by 26 percent, which is \$29,150 per person

State legislators also need to understand this bill stomps on states rights and goes right into neighborhoods. Please get informed. Talk to friends, neighbors and family. We must bury the senate in constant protest. Tell your senator/senatorette that we the people (and most likely some of the states) will bury the courts in lawsuits to gut the bill if it becomes law. Tell them this:

"Arizona is now close to becoming the first state to [outlaw climate change legislation](#). "The state Senate voted Monday, 19-10 to approve a bill banning the Department of Environmental Quality from enacting or enforcing measures with language pertaining to climate change. The bill is now awaiting [House](#) approval." Now that Arizona got rid of their former nit wit governor, Janet Napolitano, [sanity is returning](#). Be sure to [call your state legislator and senator](#) and thank them for voting the right way. **These legislators need to know you're behind them.**
