## The Day of Dialogue

<http://www.dayofdialogue.com/>  
<http://www.njiat.com/lifestyle.html>

**High School Students Standing up for Marriage between a Man & a Woman (a Creation Ordinance in the Book of Genesis 2:23-24)** on April 28, 2017. Will the Christian Clubs at Hunterdon Central High School and other high schools stand up for righteousness? Most of the so-called Evangelicals and Pastors are cowards in the U.S. Most will not even announce it from their pulpits.

**On the Day of Dialogue, high school students can legally counter the promotion of the homosexual agenda in their high schools by "The Gay, Lesbian, Straight Education Network" (GLSEN) that supports the "Day of Silence".**

On the Day of Dialogue, high school students can legally counter the promotion of the homosexual agenda in their high schools by "The Gay, Lesbian, Straight Education Network" (GLSEN)--the **Day of Silence** is held every year at many high schools across this nation such as *Hunterdon Central High School* thru sponsoring clubs such as **PULSE**. The purpose of The Day of Silence is to legitimize homosexuality--GLSEN encourages students celebrating this event to lobby for legislation supported by homosexual-advocacy groups and pressure school officials to implement things such as "queer friendly" prom.

**Note: Sharing the truth is not hatred towards Gays. Everyone is born into sin from birth (Genesis 8:21; Psalms 51:5; Romans 5:12, 3:23 & Ephesians 2:3) because of the fall of man in the Garden of Eden. Because everyone is a sinner, one needs to repent and accept the savior (Yeshua Ha-Maschiach--the Supreme Ruler of the Universe) for the forgiveness of sins. The Bible is very clear on homosexuality--it condemns the behavior as sin in addition to *fornication (sex outside of marriage), adultery, androgyny, cross-dressing (Deut. 22:5), bestiality, covetousness, lying, perjury, murder, etc.* Man lost the ability to keep God's law 100% after the fall.**

**"Yes, Dr. Martin Luther King, Jr. was against homosexuality. Dr. Alveda King (niece of Dr. King) condemned the gays and the LGBT activist vultures in 1997 for equating gay rights with the struggle for Civil Rights of African-Americans. Yes, homosexuality is not a Civil Right and Dr. Alveda's uncle (Dr. Martin Luther King Jr., who wrote against homosexuality in Ebony magazine in 1958) did not die to promote the homosexual agenda--Dr. Alveda King made this very clear. She is also pro-life.**
